FOR IMMEDIATE RELEASE

### **Ware County Board of Elections Confirms Public Service Commission District 3 Republican Primary Results Following Recount**

June 23, 2026 — The Ware County Board of Elections and Registration has completed the recount of ballots cast in the May 19, 2026 General Primary/Nonpartisan Election for the Republican nomination for Public Service Commission District 3.

The recount was conducted on Monday, June 22, 2026, at the Ware County Board of Elections Office in accordance with state election procedures.

Following the recount, the vote totals were confirmed as:

- Brandon Martin: 1,683 votes
- Fitz Johnson: 1,582 votes

The recount produced results that matched exactly with the Official and Complete Results previously certified by the Ware County Board of Elections following the May 19 election.

The successful verification of the results demonstrates the accuracy of Ware County's election administration processes and the reliability of the county's voting system.

Board Chairman Danny Bartlett, who personally served as a member of the recount team, praised the professionalism of the process and the dedication of those involved.

*"Having participated directly in the recount, I can say that the process was thorough, transparent, and conducted with great attention to detail," said Bartlett. "Most importantly, the recount confirmed exactly what was reported on election night and later certified by the Board. The matching results should give voters confidence that every ballot was accurately counted and that our election systems performed exactly as intended."*

The Ware County Board of Elections appreciates the efforts of the recount team members who dedicated their time to ensuring the accuracy and integrity of the election process.
